

Creative Center for Young Children

July 2022

Important Dates

July 4, 2022

CCYC Closed

August 15-19, 2022

Transition Week

August 22, 2022

Move Up Day

August 24, 2022

First day of School DMPS

August 30, 2022

Fall Parent Orientation Night

Updates from First Church

Join us Sunday at 10:30 AM!

Fellowship Time following worship in Kenyon Hall.

Join us on [Facebook](#) or [YouTube](#) to participate in live stream worship at 10:30 AM.

Nursery and Children's Church available during worship

CCYC is in need of scratch paper!!

Old notepads, letter head, computer paper (printing on one side is fine- just make sure it isn't confidential) or envelopes. Our budding artists go through a lot of paper!

Thank you to everyone who generously donated money, or your time and talents to making Teacher Appreciation week a special week for our staff. You treated them to a delicious breakfast, snacks, and lunches from Basil Proseri and Jimmy John's. As well as a generous gift, and a very touching video. Our teachers are amazing and definitely felt the love!

From the CCYC Office

We wanted to take a few minutes to talk about driveway safety since we are at the beginning of summer and that means children are playing outside so much more. Let's take a look at some great information from Safe Kid's Worldwide.

Kids love cars, and when they see a parked car, they don't even think about the possibility of getting hurt or seriously injured. That's why parents have to. Many preventable injuries and deaths occur in driveways or parking lots when drivers are unaware that children are near vehicles. Tragically, these drivers are often family members or friends of the injured child. But these injuries are easily prevented by following a few simple tips.

Lend a Hand to Younger Kids

- Accompany little kids when they get in and out of a vehicle. Hold their hands while walking near moving vehicles or in driveways and parking lots or on sidewalks

Check Your Car and Driveway for Kids

- We know you're often in a hurry, but before you drive away, take a few seconds to walk all the way around your parked car to check for children.
- When checking for kids around your vehicle, see if anything that could attract a child such as a pet, bike or toy, is under or behind your vehicle before getting in and starting the engine.
- Designate an adult to supervise and find a safe spot for children to wait when nearby vehicles are about to move and make sure the drivers can see them.

Limit Play in the Driveway

- Work with your kids to pick up toys, bikes, chalk or any type of equipment around the driveway so that these items don't entice kids to play.
- Identify and use safe play areas for children, away from parked or moving vehicles. Teach kids to play in these areas instead of in, around or behind a car. Consider making your driveway a toy-free zone.
- Don't allow children to play unattended in parking lots when cars are present

Each year, more than 9,000 children are treated in emergency rooms for injuries that occurred while they were unattended in or around motor vehicles.
